Exterior Surface Coating

A high performing formula combining Silicon Carbide (SiC) and Silicon Dioxide (SiO₂), delivering extreme durability, hardness and a permanent super gloss finish.

- **Mirror-finish super gloss:** The Silicon Carbide (SiC) base gives the highest gloss and hydrophobic properties to help repel anything that gets thrown at it
- **Durability tested to last a lifetime*:** As the most durable protective product on the market, HYDRO is 4 times harder than quartz based protectors
- **Proven and globally certified:** Tested, proven and globally certified to the stringent standards set out for Boeing compatible products.

Interior Surface Coatings

- **Leather Preserver:** Protects against the effects of UV rays such as cracking, splitting and discolouration
- **Vinyl Conditioner:** Provides protection against cracking and discolouration caused by the harmful effects of UV rays
- **Fabric and Carpet Protection:** Provides a resilient and effective stain barrier against commonly consumed food and drink spills, creating an easy-to-clean surface.

HYDRO ACTIV Surface Coatings are a once-off application for a lifetime* of protection. This means you can spend less time cleaning your vehicle and more time doing the things you love.
