

Hydro Exterior Surface Protection

HYDRO
Paint Surface Coating.

smartleasing.com.au

HYDRO exterior surface coating is engineered for durability and protection, creating a barrier against UV damage and staining from the elements. This coating helps to retain a high gloss finish of your paintwork and contains self-cleaning properties, meaning your vehicle stays looking cleaner for longer, allowing you more time to do the things you love!

A once-off application, for a lifetime* of protection, to preserve and protect the paintwork, as well as the re-sale value of your vehicle.

Key Features

Made from a high performing formula combining Silicon Carbide (SiC) and Silicon Dioxide (SiO₂), delivering extreme durability, hardness and a permanent super gloss finish.

As the most durable protective product on the market, HYDRO Paint Surface Coating is 4 times harder than quartz based protectors. Tested, proven and globally certified to the stringent standards set out for Boeing compatible products.

HYDRO
SILICON CARBIDE (SiC)

FACTORY CLEARCOAT

VEHICLE PAINT SURFACE

Benefits

- The key components deliver extreme durability, hardness and a super gloss finish.
- Incredible repellence to water, sheeting and rolling off the surface taking with it dirt and grime and reducing calcified water marks and spotting.
- Significantly reduces maintenance, looking cleaner for longer.
- Protects your paint against the damage caused by bird and bat droppings, as well as damage caused by:
 - Weather Induced Oxidisation
 - Fading & Loss of Gloss
 - Tree Sap
 - Bug Splatter
 - Bore Water
 - Sunscreen
 - Water Marks
 - Rail Dust
 - Fallen Leaves
 - Clear Coat Delamination (limited 6 year warranty for vehicles less than 12 months old at date of application).
- The once-off application adds permanent protection, eliminating the need to wax and polish.
- Helps preserve your vehicle's re-sale value.
- Comes with a nationwide lifetime warranty*.

Extra Thickness. Enhanced Protection.

HYDRO adds an extra, tougher layer on top of the vehicle's factory clear coat. Once applied, this permanent coating creates a hydrophobic surface so water sheets off, taking dirt and other contaminants with it.
